CONSTRUCTION PERMITS

105.7.8- Fire Pumps and Related Equipment

Permit Fee- \$100

Permit Period- 1 Year

Where Required

In accordance with Rutherford County's enacted permitting requirements. A construction permit is required for the installation of or modification to fire pumps and related tanks, jockey pumps, controllers, and generators. Maintenance performed in accordance with this code is not considered to be a modification and does not require a permit.

Permit Application

- Must be submitted online at <https://cityworks.rutherfordcountyttn.gov/PublicAccess>
- No work may be performed until plans have been reviewed and approved.
- Inspections are required for all permits.

Plan Review Submittal Requirements

1. Completed permit application signed by licensed fire protection contractor.
2. Scope of work to be performed.
3. Type of system/equipment to be installed.
4. Detailed system plans (signed and sealed) shall include:
 - a. Type, size, and quantity and location of equipment to be installed.

***Installation/Inspection Records are required to be submitted to The Compliance Engine**

- b. List all devices, fuel tanks, fuel tank location and capacity, jockey pumps, controllers, generators, wiring methods, and all other equipment related to the project.
- c. Cut sheets for all equipment/components to be installed.
- d. Copy of hydraulic calculations, pump curve, etc.
- e. Letter of design certification indicating that the system design as submitted meet all local requirements and standards set forth by NFPA.

***Installation/Inspection Records are required to be submitted to The Compliance Engine**
